

MUH. FIKRI KHAIDIR

SOFTWARE & WEB DEVELOPER

"I'm eager to learn, passionate in what i do. I'm a deep thinker, love challenges and love to figure out new ways to do usual things. I spent my days to learn so many things such as Coffee Culture and methods to brew them too. Also, as a Homo Ludens, i play video games to have fun, and read any recent research from any subjects."
